DR. TAMIRIS (TAMI) SANTOS
Senior Land Platform Analyst
Janes

Dr Tamiris (Tami) Santos is a Senior Land Platforms Analyst at Janes and a secretariat member of the Military Innovation Network at King's College London. Tami was a Visiting Research Fellow and a Research Associate at Loughborough University (2023 - 2025), working with Dr Duncan Depledge in the NETZMIL Project. She holds a PhD in International Strategic Studies from the Federal University of Rio Grande do Sul, in Brazil. Her research covers defence, military innovation and the relationship between climate change and military operations. Her publications include research on low-carbon warfare, energy transitions and system approach to defence.
