

HIMANSHU GUPTA

CEO and Co-founder

[ClimateAi](#)

Himanshu Gupta is the CEO and co-founder of ClimateAi- a series-B company that uses AI to help companies and countries adapt their food and water supply chains to climate change. The company's platform was listed in TIME as one of America's Top GreenTech Companies in 2024 and one of the Best Innovations for 2022, along with OpenAi and others. He has previously worked with Vice President Al Gore and Lord Nicholas Stern, and was the lead emission modeler for India with contributions to the Paris Discussions. Himanshu was listed in Tech Insider's TOP 100 people in Artificial Intelligence globally.

Himanshu's thought leadership has been published by FT, CNN, WSJ, Forbes, BBC, Reuters, and Stanford Social Innovation Review, among 20+ other publications. He has co-authored a book on the low-carbon economy for India and is an MBA/MS graduate of Stanford University School of Business and Engineering.
