

# Defence and Industrial Base Cooperation Amongst Allies

**ALAIN GAUTHIER**  
**Vice President - North America**  
**Marshall Aerospace Canada Inc.**

---

Alain Gauthier is an experienced business executive who has repeatedly demonstrated highly refined leadership, project management, consensus building, and change management skills. All these skills have contributed to an internationally recognized track record in attaining business and strategic goals.

Alain served 23 years in the Canadian Army as an armoured officer including several international deployments and operations. His last position was in the Directorate of Land Requirements where he was responsible for the fielding of the Canadian Army's foundational digital C4I system. Alain subsequently spent 14 years at Thales Canada beginning as a Project Manager, where he accepted ever increasing responsibilities, ultimately serving as Vice President for the Canadian Business Unit responsible for all C4I programs including Cyber, Training and Simulation and R&D Capabilities. Alain subsequently moved to Mack Defence in 2015 where he was responsible for delivering the over \$1.0B (CAD) Medium Support Vehicle System (MSVS) program of 1587 Logistics trucks, trailers, and Armoured Cabs including full ILS and ISS capability to the Canadian Army. Alain joined Marshall Canada in 2023 as Director Strategy and Business Development and was subsequently appointed Vice President, Marshall North America in July 2024.

Alain is a versatile, fluently French-English bilingual, dynamic, and proven performer with unparalleled experience in military and Canadian industry team building, leadership, and program delivery.
