

MOHAMMAD ALQATTAN
Vice President of Research
[American International University in Kuwait](#)

Professor Mohammad Alqattan is an accomplished academic and strategic leader with a distinguished background in marine science, blue economy, and naval strategy. He currently serves as the Vice President of Research and Public Relations at the American International University (AIU) in Kuwait. Professor Alqattan holds multiple post-doctoral degrees, including in Marine Science and the Blue Economy, from Newcastle University, UK, and is a graduate of the prestigious Britannia Royal Naval College in Dartmouth, UK.

A former brigadier in the Kuwait Naval Forces, he has over two decades of experience in maritime operations and strategic planning. He is also the leader and president of the Kuwaiti National UAV Project for marine and maritime security, a pioneering initiative aimed at enhancing surveillance and protection of Kuwait's marine resources through advanced drone technology.

Professor Alqattan's extensive research portfolio includes groundbreaking studies on marine pollution, illegal fishing, and maritime piracy. He has authored numerous publications and contributed to international conferences, cementing his reputation as a thought leader in his field. His work is driven by a passion for advancing marine sustainability and contributing to Kuwait's Vision 2035 through research, academic collaboration, and innovative technology integration.
