ALESSANDRA USSORIO

Capability Development Coordinator
[European Union Satellite Center \(SatCen\)](#)

Alessandra USSORIO is Capability Development Coordinator, at the European Union Satellite Centre (SatCen) since 2007, addressing innovation, service evolution and cooperation.

She is currently in charge of the implementation of a Climate and Environment Security Data and Analysis Hub, in cooperation with the European External Action Service, the European Commission, the European Union Member States and other relevant stakeholders.

She cooperates with the European Commission on the Earth observation component of the European Union's Space programme, Copernicus, for the implementation of the Copernicus Service in Support to EU External and Security Actions (SESA). Working on the evolution of the SESA Service, she explored how geospatial information could support Climate Security.

She is responsible for SatCen support to the European Commission for the implementation of a potential future EU Earth Observation Governmental Service in the framework of the EU Space Strategy for Security and Defence.

She is responsible for SatCen cooperation with the European Defence Agency.

Prior to that she worked for 6 years as I.T. Senior Analyst, Scientific Officer in the Nuclear Safeguards Unit - Institute for the Protection and Security of the Citizens at the European Commission Joint Research Centre (JRC).

She holds a Master's Degree in Computer Science.
