Dr. SARAH B. KAPNICK

Managing Director, Global Head of Climate Advisory

[J.P. Morgan](#)

Dr. Sarah B. Kapnick is the Global Head of Climate Advisory in the Commercial and Investment Bank at J.P. Morgan. In this role, she advises the bank's clients on climate, energy, biodiversity and sustainability topics. Responsible for overseeing the Firm's climate thought leadership strategy, Dr. Kapnick leverages extensive technical and scientific expertise to drive content strategy and advise clients at the intersection of finance, climate science, and national security. She was previously with the bank's Asset and Wealth Management division.

Prior to her current role, Dr. Kapnick was Chief Scientist at the National Oceanic and Atmospheric Administration (NOAA), responsible for guiding the programmatic focus of NOAA's science and technology priorities. She spent a decade at NOAA's Geophysical Fluid Dynamics Laboratory (GFDL) leading research and development on seasonal to decadal variability and prediction.

Dr. Kapnick earned a Ph.D. in Atmospheric and Oceanic Sciences and a Leaders in Sustainability Certificate from the University of California, Los Angeles (UCLA), as well as an A.B. in Mathematics with a certificate in Finance from Princeton University. She presently serves on the nonprofit boards of Climate Central and the Woods Hole Oceanographic Institution. Additionally, she serves on the scientific advisory panels for the World Meteorological Organization and Food Security Leadership Council.
