Dr. ANDREA H. CAMERON

Political Scientist and National Security Scholar

Andrea H. Cameron is a political scientist and national security scholar who holds several leadership positions in environmental, climate, and energy security. Her academic interests explore non-traditional and transnational security threats and their impact on U.S. strategic, national security and economic interests. She teaches courses on climate change and national security and conducts research on climate and energy security, human security topics, and civil-military coordination during humanitarian assistance.

Dr. Cameron was detailed as Climate and Environment Policy Advisor to Office of the Secretary of Defense for Policy (OUSD(P))/Deputy Assistant Secretary of Defense for Arctic and Global Resilience (AGR) and leads a defense community on Resource Competition, Energy, Security, and Stability (RECESS). She was a national security author on the U.S. 5th National Climate Assessment.

Andrea H. Cameron was a Fulbright Scholar in NATO Security Studies in Belgium in 2023. Dr. Cameron taught transatlantic climate security at the College of Europe and researched climate security policy development. She holds a Ph.D. in Security Studies from the Naval Postgraduate School and an Ed.D. in Educational Technology from Pepperdine University.

Dr. Cameron is representing herself at this event and the views expressed do not represent the Department of War. No U.S. government funds were used to support her participation in this event.
