## MADELEINE REDFERN

Special Advisor

[Canadian Nuclear Laboratories](#)

Madeleine Redfern from Iqaluit, Nunavut is an Indigenous woman involved in high-tech and innovation. Actively involved in transformative technologies in transportation, energy, telecommunications and digital infrastructure in rural, remote, arctic and indigenous regions. Madeleine is a Special Advisor to the Canadian Nuclear Laboratories regarding micro/small modular reactors. She is also working to deploy 3000 km of subsea fibre optic cable into and through Canada's arctic with strategic segments to have sensors to collective real time marine data.

Madeleine's advocacy, professional, and governance work shown her dedication and passion towards the development and delivery of programs assisting Indigenous, Inuit, northerners and Canadians that reflect their values, needs, and priorities. Madeleine received the Indspire Award for Public Service to acknowledge and celebrate all her hard work, commitment and contributions.
