SYLVIA STOJILKOVIC

Managing Partner

[Cleantech & Energy International](#)

Sylvia Stojilkovic has more than 15 years of experience across DeepTech, venture capital and industrial innovation, helping move frontier technologies from early-stage development to investment, commercial adoption and deployment.

As Managing Partner for Cleantech & Energy International at UnternehmerTUM, Europe's leading startup hub, Sylvia built cross-sector initiatives to strengthen energy resilience and industrial capabilities. She helped build and shape the Energy Resilience Leadership Group from its inception and was a Founding Partner of Energy Launchpad, linking science, industry and capital to scale European energy technologies.

Previously, Sylvia built and led the European hub of a Silicon Valley-based accelerator for enterprise and DeepTech founders. There, she invested in startups and helped them secure customers, follow-on funding and access to the US market. Earlier, she spent five years in global renewable-energy strategy at EnBW before moving into venture building and early-stage DeepTech investing at Future Energy Ventures. Today, she holds governance and advisory roles across venture funds and investment platforms focused on energy, industrial DeepTech and strategic technologies. Sylvia is a Senior Fellow at Loom focusing on dual-use technologies and is based in Germany.
